

Is Prepay the right choice for me?

Would it be easier for you to make daily, weekly or biweekly payments rather than one large payment each month?

Prepay works best for people who want to take control of their electric accounts and energy usage. By monitoring your consumption on a regular basis, you will begin to notice patterns in your day-to-day usage. Any variation from this pattern, such as a house guest (increase) or a vacation (decrease), will become evident as you monitor your account. Monitoring and controlling daily usage can help keep those electrical costs down.

Statistics indicate prepay electricity programs help lower electric consumption due to member's awareness of usage patterns.

Any member interested in monitoring and lowering their electricity usage would benefit from the pay-as-you-go program.

Will I pay a deposit?

No. Prepay members do not pay a deposit. Current Cullman EC members will have their deposit used to pay any past due balance on their account, and the rest will be applied to their prepay account balance.

Will I receive a bill?

No. Prepay accounts do not receive a monthly bill.

The **power** to control your energy costs

What if paying your electric bill was like buying gas for your vehicle? Now, it can be. Cullman Electric Cooperative introduces pay-as-you-go, a prepay energy solution.

- Choose your own payment schedule
- Purchase electricity when convenient
- Monitor electrical usage
- Customize the plan that is best for you
- **No deposits, no late fees, no monthly bills**

Contact us at 256-737-3200 or visit our web site at www.cullmanec.com to find out if pay-as-you-go is a good choice for you!

pay.as.you.go

A PREPAY ENERGY SOLUTION

Traditionally, people receive a utility bill at the end of the month for all of the electricity they used in the past 30 days.

pay.as.you.go works the other way. The program allows you to choose how much and how often you want to pay before you use the electricity.

Think of pay.as.you.go the same as you do putting gas in your car: You pay for it before you use it. You can purchase small amounts every few days or "fill up" the tank and not worry about it for several weeks. When your supply is low, you simply purchase more.

Because you pay for electricity in advance, the pay.as.you.go program does not require members to have a deposit, there are no monthly bills and no late fees.

The program also saves money! In similar programs across the country, pay.as.you.go participants typically see a 10-12% reduction in their monthly electric bill.

What is prepay billing?

With prepay billing, you pay for electricity how and when you choose. Purchasing electricity before you use it allows you to control your budget and pay how much you want, when you want. And there are no security deposits or late fees. Instead of a monthly billing statement, your usage and balance are calculated daily. Track your usage by phone or online at myusage.com.

How does it work?

You purchase electricity before you use it. Payments can be made when you want to — online, over the phone or in person at a Cullman EC office. When your account runs low, you will get an alert by phone, text or e-mail (your choice), letting you know it's time to recharge your account.

What if my account runs out?

If funds in your account run out, your electrical service will be automatically disconnected. You will be notified by phone, text or e-mail (your choice) that service has been cut off. You can purchase more power online or by phone any time of day, 7 days a week. Your power will be restored within 30 minutes, and you won't be charged a reconnection fee.

How much money should I keep in my prepay account?

It's up to you! Buy energy to last for a few days or several months!

Who can participate in the program?

Cullman EC members receiving electric service under the residential rate or where technological capabilities exist.

NO DEPOSITS. NO LATE FEES. NO MONTHLY BILLS

MyUsage.com

Track your daily usage at www.MyUsage.com. By monitoring energy usage and adjust habits and appliance operation, you can reduce the amount of electricity you use each day and save money!

MyUsage.com can be used by all members of Cullman Electric Cooperative.

Those with a pay.as.you.go account can monitor daily usage and check account balances. Members with a traditional account can see daily usage reports and daily temperature statistics to see how extreme temperatures (hot or cold) can result in high energy usage.
